Access Qualifications

General secondary education qualifications

The general access requirement for higher education studies is the *Gümnaasiumi lõputunnistus* (Certificate of General Secondary Education) or a corresponding qualification.

The *Gümnaasiumi lõputunnistus* is awarded after 12 years of study, including 9 years of basic education and 3 years of general secondary education. Until 1995 the name of the Certificate of General Secondary Education was *Keskkooli lõputunnistus*. In the 1988/1989 school year the transition from 8-year to 9-year basic school, as well as from 11-year to 12-year secondary school took place at schools where the language of instruction was Estonian. Accordingly, the first graduates, who had completed the 12-year secondary education programme, finished school in 1998.

Since 1997 the *Gümnaasiumi lõputunnistus* has been issued together with the *Riigieksamitunnistus* (State Examination Certificate). Effective 2009, the State Examination Certificate is not issued in paper format. The certificate is available in electronic format through the official state portal *eesti.ee*.

Since 2003 graduation the Certificate of General Secondary Education and the transcript of grades (*hinneteleht*) are issued as two separate credentials.

Vocational secondary education qualifications

General secondary education can also be obtained at a vocational secondary school (*kutseõppeasutus*) where it is combined with vocational education.
